ABOUT US

Our company has been established in 1980 by Necati Uğurluay in Istanbul. As a reliable, successful and preferred company, Güçlü Toys ranks one of the first companies in the toy industry.

To contribute mental and physical development of children, our company produces healthy and high quality products and serves with a wide product portfolio with CE certificate in accordance with EN71 standards.

At our factory which was built on a production area of 12.000 m2, we continue to add value to the country's economy with domestic production, taking customer satisfaction into account.

Our company, which has been producing high quality and environmental products for 40 years, compliances with the latest technology trends for the physical, mental and social development of our pre-school and school-age children.

Our company, which exports to more than 50 countries, always renews itself with today's technology in order to keep its production systems at world standards. Our goal is to reach all children with our innovative and environmentally friendly products, to develop their creativity by considering their health first, and to enable them to learn while playing.

OUR MISSION

To serve our children by adopting the highest health standards as a principle, by constantly improving our product portfolio with the latest technology in order to contribute to their physical and mental development.

It is the unchanging principle of our company to offer environmentally friendly, healthy and reliable products in order to provide the highest benefit to our customers and business partners.
